

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

February 1 through 15, 2004

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **February 1-15, 2004.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Associate Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

**ENVIRONMENTAL DOCUMENT FILINGS
WITH THE STATE CLEARINGHOUSE
Calendar Years 1999 through 2003**

	NOP	EIR	ND/MND	NOD	NOE	EA	EIS	OTHER	Total Documents	Total Projects

<u>Documents Received on Monday, February 02, 2004</u>			
2004021003	VEN 101/23 Interchange Improvement Project Caltrans #7 Thousand Oaks, Moorpark--Ventura The proposed interchange improvement project for the U.S. 101 and SR 23 is located in the City of Thousand Oaks from the Los Angeles/Ventura County line to Moorpark Road and Hillcrest Drive. The proposed project includes the extension of auxiliary lanes in both directions, conversion of auxiliary lanes to mixed-flow lanes, addition of a northbound lane, realignment and widening of ramps at the interchange, and the construction of soundwalls and retaining walls in various locations. All work will take place within state right-of-way.	CON	03/02/2004
1997071010	Alton Avenue Overcrossing at State Route 55 Santa Ana, City of Santa Ana, Irvine--Orange Construction of an overcrossing on Alton Avenue/ Parkway over SR-55 with high occupancy vehicle (HOV) drop ramps, addition of a signalized intersection with the HOV ramps, widening SR-55 to accommodate median ramps, widening Alton Avenue, relocating an existing drainage channel, relocating two sections of Pullman Avenue, widening the Dyer Road undercrossing structure, and modifying existing ramps at MacArthur Boulevard and Dyer Road to connect with the widened freeway.	EIR	03/17/2004
1997072039	University Village and Albany/Northwest Berkeley Properties Master Plan Amendments University of California, Regents of the Albany--Alameda Complete the redevelopment of University Village by replacing the remaining 1940s and 1960s housing units, and developing a 26-acre parcel of land as a mixed-use project with graduate student housing, retail development, open space, and community and recreation facilities.	EIR	03/17/2004
1998102088	Statewide Program EIR on General Waste Discharge Requirements for Biosolids Land Application California City --Alameda, Alpine, Amador, Butte, Calaveras, Colusa, ... The State Water Resources Control Board is proposing to adopt a General Order (GO) for General Waste Discharge Requirements for Biosolids Land Application for beneficial use in agricultural, silvicultural, horticultural, and reclamation activities. Biosolids are sewage sludge that has been treated, tested and shown to be capable of beneficial use as a soil amendment. The GO would establish a notification and permit review process applicable to all persons and public entities intending to apply biosolids to land in California for the purpose stated above.	EIR	03/17/2004
2003102062	Marseilles Brentwood, City of --Contra Costa The proposed project consists of a Rezone of the southern portion of the project site from R-1-6 to PD-44, a Vesting Tentative Subdivision Map to subdivide the site into 472 residential lots (471 lots for single-family development and one lot for a 108 multi-family unit development) and 16 parcels totaling 9.17 acres of open space and parks, Design Review of the proposed single and multi-family development, and Design Review of a recreation center (including a pool, wading	EIR	03/17/2004

	pool/spa), accompanying public parks, regional trails, and public roadway improvements along portions of Walnut Boulevard and Central Boulevard.		
2000052070	Uptown Mixed Use Development Project Oakland, City of Oakland--Alameda The proposed project includes the development of approximately 1,000 apartments and 270 condominiums; 1,050 student beds/faculty units; 43,000 square feet of commercial space; 1,959 parking spaces; and a 25,000 square foot public park.	FIN	
2003032014	Abbott Laboratories West Coast Research Center Redwood, City of Redwood City--San Mateo The project sponsor, Abbott Laboratories, proposes to construct a master-planned "West Coast Research Center." The proposed project would remove existing salt-processing structures and equipment on the site and construct approximately 541,000 square feet of manufacturing, research and development (R&D), office, and warehouse uses in three phases over a period of approximately 10 years.	FIN	
2003092068	Bay Trail Extension to the Berkeley Marina Berkeley, City of Berkeley--Alameda The City of Berkeley proposes the Berkeley Bay Trail Extension project as a spur of the San Francisco Bay Trail to improve bicycle and pedestrian access to the Berkeley Marina. The implementation of the design plan would involve construction of a 12-foot wide trail and trail features through the Marina, a pedestrian bridge over Strawberry Cove, and renovation of parking lots.	FIN	
2000011025	Newhall Ranch Specific Plan: Long-term Streambed Alteration Agreement and Endangered Species Incidental Take Permit Fish & Game #5 --Los Angeles The Newhall Ranch Specific Plan is located northern Los Angeles County and encompasses about 12,000 acres. The Santa Clara River and State Route 126 traverse the northern third of the site. The river extends about 5.5 miles across the site. In May 2003, the Los Angeles Board of Supervisors approved the Specific Plan, which establishes the general plan and zoning designations necessary to develop the site with residential, commercial, and mixed uses over the next 20 to 30 years. The Newhall Ranch Specific Plan also includes a Water Reclamation Plant.	NOP	03/02/2004
2004011019	The Oaks Renovation/Expansion Project - Revised Thousand Oaks, City of Thousand Oaks--Ventura Renovation and expansion of The Oaks shopping center to add approximately 583,000 square feet of additional retail space and 2,045 parking spaces.	NOP	03/02/2004
2004021002	The River Village Project, Project No. 00-196, TR 53108 Los Angeles County Department of Regional Planning Santa Clarita--Los Angeles The applicant, Newhall Land & Farming Company, proposes to develop the site with 1,444 residential units, up to 1.5 million square feet of non-residential mixed-use space, along with a 7-acre elementary school and public recreational facilities. The project also includes all on-site and off-site infrastructures necessary to support the proposed project, including a domestic water system, sanitary sewer system, and a drainage network. The EIR will also analyze the construction of the	NOP	03/02/2004

NOE	
2004028004	Nelson Tentative Parcel Map Sacramento County --Sacramento The proposed project is a tentative parcel map to divide 0.51 acres into two parcels for residential development in the RD-5 zone.	NOE	
2004028005	Curotto Tentative Parcel Map and Special Review of Parking (Cross Access) Sacramento County --Sacramento The proposed project consists of the following: 1. A Tentative Parcel Map to divide 0.91+- acre into two (2) lots on property zoned BP (NPA). 2. A Special Review of Parking to allow cross access/parking between the subject parcels.	NOE	
2004028006	5236 Kenneth Avenue Tentative Parcel Map Resubmission Sacramento County --Sacramento The project consists of a Resubmission of a Tentative Parcel Map (02-PMR-EXR-0231) to divide 0.50+- acres into two (2) lots on property zoned RD-5.	NOE	
2004028007	Cingular Wireless Site SA-980 (Howe and Northrop) Use Permit Sacramento County -- The proposed project consists of a Use Permit to allow a collocation wireless facility in the RD-30 (f) zone. The proposed use will consist of Cingular Wireless removing three (3) quad polar antennas currently mounted at a centerline of 32 feet, on the existing 69.6-foot tall PG&E tower and install six (6) (3 proposed and 3 future) new flush mount panel antennas at the top of the tower. Cingular proposes the addition of an extension or "top hat" to mount the antennas on, which will mirror the existing profile of the tower, for a total height of 81.6 feet. The existing ground equipment	NOE	
2004028008	Cingular Wireless Facility Site No. SN-070 (North Antelope) Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of the Use Permit to allow a collocation wireless facility in the M-2 zone. The facility will consist of the replacement of existing 93.9-foot high wood pole with a steel monopole of the same height with a whip antenna mounted on the top for a total height of 100 feet. The existing six (6) panel antennas for SureWest would be mounted at a centerline of 85 feet. Twelve (12) panel antennas (3 current and 9 future) for Cingular Wireless would be mounted at a centerline of 73 feet. Related ground equipment would be placed adjacent to the monopole within a completely fenced 216 square foot lease area.	NOE

2004028009	Bothwell / Kingsbridge Drive about Vintage Park Drive and Bothwell Drive about Vintage Park Drive Signal Project Sacramento County Dept. of Environmental Review --Sacramento The project will install two traffic signals and associated pedestrian ramps, crosswalks, roadway legends, and striping within the existing Right-of-Way and existing curb, gutter, and sidewalk improvements.	NOE	
2004028010	Misc. Sewer Rehabilitation Project 1-North, Group "C": Watt/Marconi, Watt/Whitney, Madison Oak, Olson Drive, Sunset Ave., And Dawes Street Subproject Sacramento County Dept. of Environmental Review --Sacramento The proposed project includes rehabilitation at sis separate project sites. A total of approximately 2,500 feet of mainline sewer pipe will be rehabilitated. Construction for this project will include the use of trench less pipe replacement/repair method. This type of trench less method will not require digging or disruption of surface features. Access to pipe repair will be through existing manholes. The pipe size ranges from 6 to 12-inches in diameter.	NOE

2004028092	Resolution consenting to the transfer of Cable Television Franchise Ordinance No. F-426 from Sun Tel Communications, LLC to Rapid Communications, LLC Kern County --Kern Consent to transfer of the nonexclusive cable television franchise ordinance F-426 to Rapid Communications, LLC will allow for continued, uninterrupted subscriber service to the Frazier Park, Lebec, Pine Mountain service area.	NOE	
2004028093	Thistle Erosion Control Project Fish & Game #3 --Sonoma Realign approximately 230 feet of a small seasonal tributary to Austin Creek to move the stream passes within about eight feet from the house. The small stream is a very high gradient torrent which is dry in the summer and cannot support fish or other aquatic life. There is very little vegetation along the stream. The realignment would move the stream up to 70 feet to the south where it would flow through an old debris field. It appears that the deposition of the debris field probably caused the alignment of the stream to shift from approximately that which is being proposed to the current alignment close to the house. Issuance of a Streambed Alteration Agreement Number 1600-2003-0582-3 pursuant to Fish and Game Code Section 1602.	NOE	
2004028094	Muir Mill Culvert Installation Fish & Game #3 --Mendocino The project involves the installation of a ditch relief culvert along Muir Mill Road in Mendocino County. The culvert shall be 24 inches in diameter and 33 feet in length and will feed into Baechtel Creek, tributary to Outlet Creek, tributary to Middle Fork Eel River. The Inlet side of the culvert shall be bowled out to accommodate the culvert placement. The area shall be assessed by a biologist prior to operations. A backhoe will be used to dig the trench. Site is located on Willits, California (Section 20; T21N; R17W of the Lakeport 7.5 minute U.S. Geological Survey Quadrangle). The Department of Fish and Game is issuing a Streambed Alteration Agreement Number 1600-2003-5380-3 pursuant to Fish and Game Code Section 1602.	NOE

<u>Documents Received on Monday, February 02, 2004</u>			
2004028095	Hermann Gravel Extraction Fish & Game #3 --Lake The proposed project involves gravel extraction from Burns Valley Creek, tributary to Clear Lake, Lake County (Section 14; T13N; R07W). Applicant proposes the removal of less than 1000 total cubic yards of gravel over a five year period. Extraction activities shall occur from an existing site and will not involve vegetation removal. Gravel extraction is proposed to maintain the flood capacity of an existing culvert. The existing stream system is aggrading resulting in reduced culvert capacity and decreased drainage capacity on the property. Department of Fish and Game is issuing a Streambed Alteration Agreement Number R3-2002-0604 pursuant to Fish and Game Code Section 1602.	NOE

2003102086	City College Master Plan San Francisco Community College District San Francisco--San Francisco The project includes approval and implementation of a Master Plan for the long-term development of the CCSF campuses. The EIR will focus on the Ocean Avenue campus, which is the main campus and has the majority of the planned and projected process. The proposed Ocean Avenue Campus Master Plan includes construction of a Community Wellness Center and related near-term projects, construction of other projects identified in the College's 2001 for bond measure, and possible implementation of other projects identified in a 2015 building program for Main Campus facilities. Implementation of these elements would involve the expansion of campus facilities and modification of campus access and circulation. The components of the master Plan would include construction of new College buildings; expansion of selected existing building; renovation of most existing buildings; demolition of several existing buildings; demolition of the berm between the North and South Reservoirs; construction of structured parking to replace existing surface parking spaces that would be eliminated and to provide additional spaces; provision of vehicle, pedestrian and bicycle access and circulation improvements; relocation of a recreational field; and enhancement of the campus landscaping.	EIR	03/18/2004
2004021001	Cole House and Duarte Store Project Monterey, City of Monterey--Monterey The project consists of a mixed-use project involving two historic structures (Cole House and Duarte Store). The Cole House is a wood frame residence from the 1850s. The Duarte Store was moved to its current location in 1922 and housed a commercial trading business until 1950. The project includes converting the Cole House into two dwelling units and the Duarte House into an office. The construction of eight attached dwelling units in two new two-story structures behind	Neg	03/03/2004

2004021024	CUP C-04-014, Valley Fig Growers' Anaerobic Digester and Cogeneration Facility Fresno, City of Fresno--Fresno The applicant of Conditional Use Permit Application No. C-04-014 requests authorization to construct an anaerobic digester lagoon for pretreatment of wastewater sent to the City's sewer system on property located northeast of the corner of East California and South East Avenues. Valley Fig Growers, Inc. Has received a grant from the California Energy Commission to build, as a demonstration project, a fully enclosed anaerobic lagoon digester to pretreat food processing wastewater, reducing the biological oxygen demand (BOD) of wastewater discharged into the Fresno Clovis Regional Wastewater Treatment and Reclamation Facility. The 1.8 million gallon anaerobic digester will be installed on an excavated portion of Valley Fig Growers' 15.3-acre property that is south of a railroad spur line. The existing on-site stormwater ponding basin will be relocated, and pipelines and conduits will be installed under the railroad line using an encroachment permit.	CON	02/17/2004

At buildout, the high school would accommodate approximately 2,000 students and the middle school would accommodate approximately 1,000 students. The schools may have joint-use of some of the field improvements, however the buildings may stand on their own on separate, but contiguous, campuses.	NOP	03/08/2004
2004022022	Upper San Joaquin River Basin Storage Investigation Water Resources, Department of --San Joaquin Project involves developing additional water storage in the Upper San Joaquin River Basin through the enlargement of Friant Dam or other alternatives. Additional storage in the Upper San Joaquin River Basin could contribute to future restoration of the San Joaquin River.	NOP	03/08/2004
2004022026	Campus Bay Residential Project and Proposed Corresponding Zoning, General Plan and Specific Plan Amendments Richmond, City of Richmond--Contra Costa The project sponsor, Cherokee Simeon Venture I, LLC, proposes to construct a master-planned residential community with a small restaurant, associated parking areas, open space and infrastructure. The residential component would include approximately 1,330 units in buildings ranging from three to eighteen stories on the approximately 63.5 acre project site. Building heights would range from approximately 40 feet to 200 feet. Approximately 2,660 parking spaces would be provided and located within podium level parking structures, partial subterranean garages, attached and "tuck-under" garages, and on-surface parking areas, including on-street parking on proposed local streets throughout the site. A 5,000 square foot restaurant pad with 50 parking spaces would be located on the project site at the corner of S. 49th street and Harbor Way, a new roadway proposed by the project. The project would also include a neighborhood center with amenities for the residents, such as meeting room, fitness facilities, and daycare. One existing office building would be demolished as part of the proposed project. The northern portion of the project is proposed to be constructed on the southern part of the site of the Campus Bay Business Park (formerly known as the Western Research Center), approved in January 2003 by the City of Richmond, for office development. Part of the proposed project would replace the planned 542 parking spaces and two approved, but unbuilt buildings, with a total building floor area 171,942 sf, located within the southern portion of the Business Park, with residential development. The project would require Zoning, General Plan and Specific Plan Amendments to change the land use of the project site from Heavy Industrial to Residential.	NOP	03/08/2004
2004021030	Troesch General Plan Amendment ED 02-385 San Luis Obispo County Nipomo--San Luis Obispo Request by Steve and Rene Troesch to amend the South County Area Plan of the Land Use Element by changing the allowable uses for the Commercial Service land use category to allow for Agricultural Processing. The proposed bridge will have the abutments and center support constructed above the level of the 100-year flow and above the level of top-of-bank. SAA # 1600-2003-5305-3.	NOE	
2004028177	Neuman Culvert Fish & Game #3 --Sonoma Placement of 5 cubic yards of 12 inch diameter rock rip-rap at the outlet of an existing 24 inch HDPE culvert where the culvert discharges to an unnamed seasonal tributary to Salmon Creek, at the eastern end of Freestone Flats Road near the town of Freestone, Sonoma County. The rip-rap will be placed to a depth of about 15 inch, and will be placed so that it does not reduce the cross-sectional area of the stream. SAA #1600-2003-5344-3.	NOE	
2004028178	Gilbert River Bank Repair Fish & Game #3 --Sonoma Stabilize an eroding section of the north bank of the Russian River with rock rip-rap. The project site has experienced severe erosion over the past several years; this erosion is now threatening the house on the property. Without some repair of the bank, the adjacent home is at risk of eventually being lost to the river. Rock rip-rap will be placed over an approximately 70-foot length of river bank on the terrace above summer water level to stop the erosion of the upper bank. SAA #1600-2003-5318-3.	NOE	
2004028179	Oakland Coliseum Intercity Rail Station Stormdrain Replacement and Enhancement Project Fish & Game #3 Oakland--Alameda Storm drain outfall replacement as part of new station track and platform. SAA #1600-2003-5179-3.	NOE	
2004028180	Gilbert River Bank Repair Fish & Game #3 --Sonoma Stabilize an eroding section of the north bank of the Russian River with rock rip-rap. The project site has experienced severe erosion over the past several years; this erosion is now threatening the house on the property. Without some repair of the bank, the adjacent home is at risk of eventually being lost to the river. Rock rip-rap will be placed over an approximately 90-foot length of river bank on the terrace above summer water level to stop the erosion of the upper bank. SAA 1600-2003-5317-3	NOE	
2004028181	2004 Central Valley Project/Kern County Water Agency Water Exchange Kern County Water Agency Bakersfield--Kern The exchange consists of up to 20,000 acre-feet of CVPC's 2003 CVP contract supplies for a like amount of the Agency's 2004 State Water Project (SWP) contract supplies made available to the CVPC at a later time during the 2004 year. The Agency will take delivery of the CVPC CVP supplies in the O'Neil Forebay.	NOE

	CVPC will take delivery of the returned SWP water in the O'Neil Forebay. This Exchange will facilitate the efficient delivery of water to promote environmental and economic benefits as directed by the CVPIA.		
2004028182	Point Lobos Rat Hill Residence Electrical Project Parks and Recreation, Department of --Monterey This project involves installing new underground electric service from the existing underground service along the main park road to the Rat Hill Residence. A 300 foot long, 18 inch deep, 6 inch wide trench will be excavated along the shoulder of the existing rat hill access road. A 2 inch diameter conduit will be installed in the trench. Archeological monitoring of the trench excavation is not required.	NOE	
2004028183	ABDSP - Lucky 5 Dam Alteration (03/04-CD-09) Parks and Recreation, Department of --San Diego The project consists of lowering the height of an earthen dam in order to reduce the capacity of the basin behind it, bringing the dam into compliance with the California Water Code. The dam is situated on property that was recently acquired by the Department. The height of the dam will be lowered by approximately 15 feet using a bulldozer and motor grader to redeposit existing dam material to its original preconstruction location within the drainage. The dam will not be completely obliterated by the project.	NOE	
2004028184	Streambed Alteration Agreement Concerning a Tributary to the Tijuana River Fish & Game #5 San Diego--San Diego The work covered by the streambed agreemetrn includes placement of a retaining wall within a wetland to allow widening of a roadway to accommodate a new North Bound Free and Secure Trade Lane between the Mexico/U.S. import gate and the U.S. Customs inspection facility. The total area of wetland impact is 0.03 acre (0.02 acre is a permanent impact). The wetland consists primarily of cattail, with some mulefat and serveral non-native plants. Burrowing owls occupy the slope directly adjacent to the wetland area, but should not be affected by the project. SAA 1600-2004-0013-35	NOE

	and to a lesser degree non-potable groundwater pumped from the Yucaipa Management Zone Groundwater basin.		
2004021018	Lake Elsinore Town Center Lake Elsinore, City of Lake Elsinore--Riverside The proposed project consists of a 50.15-acre commercial shopping center, improvements to Dexter Avenue, SR-74, (Central Avenue), Cambern Avenue, and channel improvements to convey the flow within Arroyo Del Toro Creek through the project site. Also, offsite water and sewer facilities will be constructed to provide adequate service to the site.	NOP	03/10/2004
2004021044	Deer Canyon Estates Project Anaheim, City of Anaheim--Orange Proposing the development of 35 single-family residential residences, known as Deer Canyon Estates, on approximately 32.3 acres of private property in the City of Anaheim.	NOP	03/10/2004
2004022036	KB Home Del Monte Planned Development Zoning (PDC03-071) San Jose, City of San Jose--Santa Clara The project proposes to rezone the site from Heavy Industrial to A(PD) Planned Development Zoning District, to allow the demolition of existing cannery structures and development of residential uses on the portion of the site north of Auzerais Avenue. The project proposes construction of up to 400 single-family townhouses and multi-family condominiums. The townhouse section of the project will be three stories in height and the condominium section of the site will be four stories in height, constructed above ground floor level parking. The project also includes the dedication of 2.2 acres for a park (included in the total acreage for the project site) on the southern side of Auzerais Avenue.	NOP	03/10/2004
2003022041	Village at Green Hill (EIAQ-3459) Placer County Planning Department --Placer The property contained orchards from the 1930s to the 1960s. Pesticides, including both inorganic (i.e. lead arsenate) and chlorinated organic pesticides (i.e., DDT) were applied in the orchard area. Arsenic, lead, and organochlorine-based compounds were detected in surface soil samples and may pose an unacceptable health risk for future residents. Approximately 1.3 acres of the impacted soil will be designed as a wetland preservation easement. The impacted soil in the remaining 3.7 acres will be excavated and either transported off-site and placed in an on-site containment cell.	Neg	03/10/2004

2001051048	PacifiCenter Master Planned Community at Former Boeing Facility Long Beach City Planning Commission Lakewood, Long Beach--Los Angeles The proposed project will result in the development of approximately 261 acres of former and existing Boeing C-1 aircraft production facilities located within the Cities of Long Beach and Lakewood. Project implementation will provide for the replacement of over five million square feet of research and development (R&D), office, warehouse, manufacturing, and other aviation related floor area previously occupied on the project site with new R&D, light industrial, office, warehousing, manufacturing, and other aviation-related, and ancillary uses. In addition, warehouse uses may be developed as accessory uses to permitted uses within the commercial area of the site. The project will be designed as a master planned community integrating a variety of land uses. This will include up to 2,500 residential units, 3.3 million sf of commercial development and 400 hotel rooms. The project is anticipated to be fully developed by the year 2020.	EIR	03/26/2004

2003011056	Point Sur State Historic Park General Plan Parks and Recreation, Department of --Monterey The general plan provides long-term goals, guidelines, and directions for the operation, development, management, interpretation and resource management for this state historic park.	EIR	03/26/2004
2003102149	Wastewater Collection System No. 9 Stockton, City of Stockton--San Joaquin This Draft EIR (DEIR6-03) evaluates the potential environmental effects that would result from approval, construction and operation of the Wastewater Collection System No. 9 (System 9) project. The purpose of the System 9 project is to provide City wastewater collection service to an approximately 2,900 acre service area in the northeastern portion of the Stockton Metropolitan Area. The service area is composed of Future Growth Areas (FGAs) designed by the Stockton General Plan for planned urban development. The proposed wastewater collection system consists of two pump stations, approximately 1.6 miles of gravity wastewater trunk line and 3.9 miles of wastewater force main. The project is consistent with the City's adopted Wastewater Collection System Master Plan. The proposed project is located generally east of the Union Pacific Railroad tracks, south of Hammer and Foppiano Lanes, west of Central California Traction Railroad, and north of Alpine Avenue and the Stockton Diverting Canal.	EIR	03/26/2004
2004021054	Project No. 03-249 (Tick Canyon) Los Angeles County Department of Regional Planning --Los Angeles The proposed project involves the subdivision of the 502-acre property to accommodate 492 single-family residential units. Preliminary hillside density analysis indicates an upper limit density of 496.2 units on the subject property. In addition, an approximately 34-acre park site would be graded for subsequent development as either a neighborhood or regional park. The improved park site would be conveyed to the County of Los Angeles and dedicated as permanent Open Space.	NOP	03/11/2004
2004021055	New Construction at Hermosa Valley School Hermosa Beach City School District Hermosa Beach--Los Angeles Proposing to make certain changes to Hermosa Valley School in the City of Hermosa Beach. The changes comprising the proposed project are the construction of two new buildings with a covered walkway and expansion of the existing classroom and the two parking lots. One new building will contain an 8,250 square foot gymnasium, four 1,300-square foot classrooms (two stories), and 1,800 square feet of administrative offices (two offices, two dressing rooms, a utility room, and a storage room).	NOP	03/11/2004
2004022041	I-80 Freeway Improvement Project Caltrans #3 --Sacramento, Placer Caltrans proposes freeway improvements on the I-80 corridor to meet the following objectives: improve mobility, relieve congestion, maintain trip reliability, and enhance the overall safety for motorists using the freeway from near the Placer/Sacramento County line to east of the State Route (SR) 65 connector. <u>Documents Received on Friday, February 13, 2004</u>			
2003121093	Murray Bridge Middle School and River Park Project Oceanside Unified School District Oceanside--San Diego The project will include site preparation, construction, and operation of a 1,400-student public middle school for grades 6 through 8. The middle school will include multi-story classrooms, administration buildings, library/media center, a cafeteria, a gymnasium, hardcourt play area, a joint-use softball field, and on-site parking.	NOD	
2003122041	El Portal Charter High School and MACSA Community Center Gilroy Unified School District Gilroy--Santa Clara Construction of a 360-student charter high school and 24,000 square foot community center with gymnasium.	NOD	
2004011049	Doheny State Beach Lifeguard Headquarters and Visitor Center Replacement Parks and Recreation, Department of Dana Point--Orange The project proposes to construct a new lifeguard headquarters in Phase I and to replace an existing visitor center in Phase II. Site improvements will include improved parking, vehicle storage area, public access, underground utilities, landscape features, and will require site grading and compaction to accommodate the new structure/facilities.	NOD	
2004012043	Lower American River - River Mile 10.0 Bank Protection Project American River Flood Control District Sacramento--Sacramento The purpose of the Lower American River-River Mile 10.0 Bank Protection Project is to prevent erosion of the berm of the levee and therefore prevent failure of the levee at this point. The proposed levee treatment includes the placement of brush boxes throughout the project site, removal of nonnative trees, revegetation of the area with native species, and the placement of minor amounts of cobble and fill to stabilize areas used for river access. Except for the tree removal, all work will be performed by hand.	NOD	
2004029018	Sutter Community Services District 1.0-Million Gallon Water Storage Tank Project Sutter County Community Services District --Sutter The project consists of the construction of a 1.0-million gallon (nominal capacity) welded steel water storage tank adjacent to the existing 0.75-million gallon water storage tank, an elevated walkway between the new and existing tanks, buried pipelines to connect the new tank to the existing pipelines and related work.	NOD	
2004029019	Streambed Alteration Agreement 1600-2003-5320-3/THP 1-03-200 MEN Fish & Game #3 --Mendocino The applicant proposes 15 activities on tributaries to the Middle Fork Ten Mile River in Mendocino County, T19N and T20N, R15W, sections 1, 6, 30, 31 and 36. The projects include six new and/or replacement culverts, seven rocked fords, removal of an old Humboldt crossing, and the abandonment of a road encroachment and removal of old road sidecast materials. SAA #1600-2003-5320-3.	NOD

2004029020	Avqwick Tentative Parcel Map; TPM20685/Log No. 02-02-021 San Diego County Department of Planning and Land Use --San Diego The project proposes to divide 9.1 acres into four (4) parcels of 2.4, 2.3, 2.1 and 2.3 acres respectively. Grading will be balanced with a cut and fill of 4,500 cubic yards. A driveway is proposed along the western property boundary to serve parcels 2 and 3. Parcel 1 will take access directly off of Kristen Way. No changes are proposed for the access to parcel 4 that currently takes access off of Circle R Lane.	NOD	
2004029021	ZAP 02-054; Log No. 02-09-015 - Elling Ranch/Cingular Wireless Facility San Diego County Department of Planning and Land Use --San Diego Cingular Wireless is proposing to construct, operate and maintain an unnamed wireless telecommunications facility consisting of a total of 12 antennas within three antenna arrays of four antennas each. The antennas will be mounted on a new 50-foot monopine. The supporting equipment will consist of four self-contained Base Transceiver Station cabinets located inside of a new 10 foot by 16 foot prefabricated equipment shelter.	NOD	
2004029022	Lake or Streambed Alteration Agreement for Notification #03-0313 Fish and Game (HQ) Environmental Services --Shasta The applicant proposes 88 (eighty-eight) crossings for timber harvesting activities on Little Cow Creek and unnamed tributaries to Little Cow Creek, Shasta County	NOD	
2004029023	Lake or Streambed Alteration Agreement for Notification #03-0198 Fish and Game (HQ) Environmental Services --Trinity The applicant proposes 22 (twenty-two) crossings for timber harvesting activities on unnamed tributaries to Pelletreau Creek, Trinity County.	NOD	
2004028268	Transfer of coverage to Placer County APN 83-330-18 (Polson) Tahoe Conservancy --Placer Project consists of the sale and transfer of 16 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2004028281	Zone Variance Case No. 72, Map No. 238-36 Kern County --Kern A Zone Variance to allow a 32-foot front-yard setback, where 40 feet is required from the centerline of an existing private local street (section 19.36.070.A.1), in an M-1 (Light Industrial) District	NOE	
2004028282	Zone Variance Case No. 16, Map No. 230-21 Kern County Rosemead--Kern A Zone Variance to allow a side-yard setback of 3.5 feet, where five feet is required (19.20.070.B), in an R-2 (Medium-density Residential) District	NOE

<u>Documents Received on Friday, February 13, 2004</u>			
2004028283	Mission Valley / Yerba Santa Emergency Sewer Cleaning & Repairs San Diego, City of San Diego--San Diego Emergency repairs to a 52-year old line consisting of 6-inch and 8-inch diameter vitrified (VC) pipe for an approximate distance of 4,011 feet. Recent televising has indicated severe root intrusion, heavy debris, large rock accumulation, heavy grease build-up, and offset joints which are constricting flow. Existing (but overgrown) access will be used where possible.	NOE	
2004028284	Lower Rose Cree/Pacific (Old Rose Canyon Truck Sewer) PTS/Project Nos. 3384/28791 San Diego, City of San Diego--San Diego Emergency repairs to a 47 year old line consisting of 8-inch, 24-inch, 27-inch, and 30-inch diameter vitrified (VC) pipe for an approximate distance of 4,457 feet. New access will be needed and will follow the bottom of an existing drainage (rose Creek) and will be approximately 12-15 feet wide. Construction includes grading, repair of maintenance access, and installation of water crossings if needed. Once completed, other side canyons maybe cleaned depending upon the results of further inspections. All work will be done by the City staff and will be monitored by a biologist and an archaeologist. Erosion control measures and other BMP's will be used as needed.	NOE	
2004028285	Warf Demolition and Replacement at Marine Construction Yard Richmond, City of Richmond--Contra Costa Demolition of an existing deterioration wharf and construction of a new reinforced 4,400 square foot concrete wharf.	NOE	
2004028286	CDBG 2003 Public Works Water Improvement Project Guadalupe, City of Guadalupe--Santa Barbara The project will entail replacement of old and deteriorated water lines with new sections, meeting Health and Safety Code Requirements	NOE	
2004028287	Hartnell College "Learning Resource Center" Hartnell College Salinas--Monterey The existing library was built in 1958 and was designed for print materials only. The existing library cannot support current library services such as universal on-line access to information, electronic-based library course offerings, and access to outside informational resources. The proposed "Learning Resource Center" will be located on the northeast corner of campus on an existing parking lot, not on the originally proposed outdoor amphitheater site on the center of campus as initially intended. The proposed facility will not have a change in design or have an increase in square footage. The proposed project would have approximately 63,000 square feet and would replace Hartnell College's existing library.	NOE	
2004028288	Authorization Of A Geotechnical Field of Study For The Metropolitan Water District of Southern California's Diamond Valley East Marina Area Metropolitan Water District of Southern California Hemet--Riverside The Metropolitan Water District of Southern California (Metropolitan) proposes to construct a geotechnical study to determine the suitability of the property for a potential water tank. Study would require two test pits and two borings.	NOE

2004028289	Minor B Storm Collier Rest Area Caltrans #2 --Siskiyou This project is located on the collier SRRA on I-5 in Siskiyou County. The project is for a Minor B Storm Water project to construct two percolation basins for disposing of water filter backwash from the water filtration system at the Collier Rest Area. Additional work also includes installation of a water line from the backwash system to the ponds and fencing around the perimeter of the facility.	NOE	
2004028290	Subterranean Storm Water Drainage System Caltrans #2 --Lassen The California Department of Transportation proposes to install a new subterranean storm water drainage system along State Route 33 within the City of Susanville, Lassen County, California. The new drain will be constructed in the middle of Main St (SR 36) Susanville starting at McDow St. to the intersection with Fair Dr., approximately 0.6 kilometers. Existing drop inlets at the curbs will be upgraded (to a maximum depth of 2.1 m) to add sand traps and accommodate additional water flows. The curbs at the inlet locations will be reworked but the sidewalks will not be impacted. New lateral ties will be constructed from the upgraded inlets to the main drain. An offsite storage/staging area is also proposed for a 500 square meter area located of the west side of State Route 36 at KP 42.28 (PM 26.6). no new right of way will be required to construct the project, but the terminus of the drain of Fair Dr. Will extend in the property owned by the City of Susanville.	NOE	
2004028291	North Fork Deer Creek Bridge Caltrans #2 Tehama--Tehama Caltrans is proposing to replace the bridge deck on the north rock Deer Creek Bridge (#08-0062) on State Route 36 in Tehama County. The new deck will accommodate two 3.6-meter lanes, two 1.2-meter shoulders, a new bridge railing. The new Bridge will be coated with a methacrylate or polyester concrete overlay.	NOE	
2004028292	Issuance of Streambed Alteration Agreement #03-5269 Churn Creek, Tributary to Sacramento River, Shasta County Fish & Game #1 Redding--Shasta The project proposes to repair scour by placing rip rap along the east abutment of Churn Creek Bridge 6-153L/R on State Route 44. The Project will have no significant effect on the environment.	NOE	
2004028293	Issuance of Streambed Alteration Agreement #03-5219, Unnamed Tributary to Dry Creek, Shasta County Fish & Game #1 --Shasta The project will install a 48" culvert on an unnamed tributary to Dry Creek for a driveway that will provide access to a private residence. The project will have no significant effect on the environment.	NOE
